

American Heart Association.

CONGRATULATIONS!

The American Heart Association recognizes these organizations for contributing to innovation in the outpatient space by engaging in a new interoperable registry and improving quality of care through data-driven learning.

Initiative Focus

Target: BP Pilot

IMPLEMENT-HF™

Bay Area Community Health	CA	
The University of California San Diego Health Population Health Services Organization	CA	
University of California, Irvine UC Irvine Medical Center	CA	
Bayhealth	DE	
Northwest Community Healthcare	IL	
St. Elizabeth Heart & Vascular Institute	KY & OH	
Franciscan Missionaries of Our Lady Health System	LA	
SSM Medical Group	MO	
Houston Methodist Physician Organization	TX	
Lander Medical Clinic	WY	

The American Heart Association's National Heart Failure Initiative, Implement-HF™, is made possible with funding by founding sponsor, Novartis and national sponsor, Boehringer Ingelheim and Eli Lilly and Company. The Target: BP™ pilot project, which leverages data to lower high blood pressure in patients with hypertension, is brought to you through a collaboration between the American Heart Association and American Medical Association.
